Distance to nearest training well
(b) Residual distribution vs calibration widths
Held-out |residual| (n=3,392)
OOF half-width = 2.71 m
Corrected (global) = 6.74 m
46% of residuals exceed OOF
Frequency
Absolute held-out residual (m)
(c) |Residual| vs prediction
Held-out reading
OOF half-width = 2.71 m
Corrected global (C0) = 6.74 m
Exceedance (target 10%):
OOF: 46.3%
Global C0: 10.6%
Distance C1: 10.8%
|Residual| (m)
Predicted depth (m)
